SUMMARY

I'm Nguyen Vu Hoang Phuc, third year Computer Science student at Hochiminh city University of Technology.
My desire is to be a software engineer especially in web development. Making a website work is a fun and exciting process for me. I am doing my utmost to become a good developer.
I have foundation knowledge about computer, programming and web development. I'm most familiar with Javascript, Angular, MongoDB through some projects at university but I also can adapt to other technologies.
I'm always happy and willing to learn new things.

EDUCATION

Computer Science (Bachelor of Engineering)
Hochiminh city University of Technology (HCMUT)
